**Why Tomatoes are Tops!**

**FLAVOR**
Tomatoes add color, flavor, and texture to your favorite sandwich, salad, or omelet.

**RICH IN VITAMINS AND MINERALS**
Tomatoes are high in Vitamin C and are a source of beta carotene, potassium, folic acid, iron, and fiber.

**EASY TO USE**
Tomatoes combine well with about any type of food, such as, poultry, fish, rice, pasta, as well as other vegetables. Tomatoes make an excellent base for homemade soups or sauces and go especially well with pasta dishes.

**Is it a fruit or a vegetable?**
A tomato is actually a fruit! A fruit is considered the edible part of a plant that contains the seeds. A vegetable has edible stems, leaves and roots of a plant.

**Shopper’s Guide**

**Selection**
Choose red or reddish-orange tomatoes that “give” very slightly to gentle pressure. Do not buy bruised, soft or moldy tomatoes.

**Storage**
When storing tomatoes at home, do not refrigerate them; room temperature is best. If tomatoes are not fully ripe, place the tomatoes in paper bag with an apple or banana. Do not ripen tomatoes in direct sunlight, because even though the skin is red, the tomatoes will not be ripe and flavorful inside.

**Preparation**
Peeling fresh tomatoes is not necessary, although some cooks prefer it. To peel fresh tomatoes, dip them in boiling water for about 30 seconds or until skins split. Remove with slotted spoon and dip in cold water. The skins will come off easily.
